Note—Illustrated articles are marked with an (*) asterisk.

ARTICLES

Aerodynamical experiments upon a yacht's mainsail 540
Adventures of the Nantucket..... 29
Adventurier, Opiniatre, Temeraire and Intrepide, latest French destroyers.... *168
Air ejector system, Westinghouse-Leblanc. Kothny *556
Alameda, Southern Pacific ferry steamer. Olin *194
Alfred, stern wheel motor ferry boat.... *499
American Society of Marine Draftsmen, convention of 211
Applicability of electrical propulsion to battleships. Robinson *19
Application of electricity to propulsion. Donnelly *204, 264
Application of small steam turbines for auxiliary purposes on board ship..... 547
Arizona, launching of. Barber *334
Auxiliary naval vessels *295
Auxiliary power for sailing vessels..... 348
Auxiliary sailing ships, development of.. 300
Barge construction for inland navigation. 542
Barge and dredger for Tasmania. Coleman *250
Barge canal terminal *114
Barge for the Mississippi River, self-propelled *497
Barges and steamers, Western river. Burnside *478
Barges equipped with Brownhoist locomotive cranes for handling coal..... *118
Barnard, reconstruction of U. S. dredge. Peyton *244
Battleship Arizona, launching of. Barber. *334
Battleships, electric propulsion of..... 545
Battleship, launching data for a. Tawresey 9
Battleship Pennsylvania, reduction gears on *339
Battleships, applicability of electrical propulsion to. Robinson *19
Battleships Bretagne and Provence, French *198
Behavior of riveted joints under stresses. Howard 18
Belgenland, Red Star liner *344
Boiler circulators and feed-water heaters. 171
Bolinder oil engine, installation of 120-horsepower oil engine in pilot schooner Gracie S. *158
Brake, experiments on ship 544
Brass an expensive luxury in the engine room. "Old Scotch" 359
Bretagne and Provence, French battle ships *198
Bristol, seagoing steel tug *77
Brownhoist locomotive cranes for handling coal *118
Bucket ladder dredger and hopper barge for Tasmania. Coleman *250
Bucyrus dipper dredges *254
Cable-repairing steamer Transmitter. Coleman *382
Cable ship Edouard Jeramec, French-built. Coleman *146
Calculations for ships' forms. Taylor.... 443
Canal, construction of the Welland. Craick *154
Cape Cod Canal, dipper dredges on..... *255
Captiva, houseboat *536
Car ferry Contra Costa. Olin *385
Changes in war-risk insurance 59
Chart system of propeller design, Dyson. Malseed *74
Chickamauga, Diesel motor tug. Nicholson *493
Classification of ships. Liddell 441
Coal-handling plant on the lakes, rapid.. *338
Coaling pier at Charleston, S. C., new Southern Railway *151
Coaling ships, De Mayo system for..... *122
Collier Jason as a Christmas ship..... *32
Collision, stability of vessels as affected by damage due to. Gatewood *156
Conewago, houseboat *536
Congestion of freight at New York terminals *80
Construction of the Welland ship canal. Craick *154
Contra Costa, side-wheel car ferry. Olin. *385
Convention of American Society of Marine Draftsmen 211
Craig Diesel type marine oil engine..... *217
Crandall railway dry docks, two new.... *166
Data on hog and sag of merchant vessels. 547
Davits and the new requirements. Broady. * 260, 305, 355
Dawn, motor boat equipped with electric drive. Donnelly *204, 264
Decoration of vessels, interior 545
DeMayo system for coaling ships..... *122
Delta II, motor fire float..... *492
Design, Dyson chart system of propeller. Malseed *74
Design of small screw propellers. Jackson *446
Design, steamship. Everett *436
Destroyers, French, latest *168
Determination of the resistance of ships.. 544
Development of auxiliary sailing ships... 300
Developments in marine electrical engineering. Hornor 201
Diesel engine, operation of a marine. Percy 209
Diesel-engined submarine tender Fulton. *77
Diesel-engined vessel for the United States Navy, first 532
Diesel motor tug Chickamauga. Nicholson *493
Diesel type marine oil engine, the Craig.. *217
Dipper dredges, four-yard government... 247
Dipper dredges, most powerful in the world *254
Dipper dredges on the Cape Cod Canal, ten-yard *255
Dochra, American refrigerator steamer.. *150
Dreadnought Pennsylvania, speed control on *200
Dredge Barnard, reconstruction of United States. Peyton *244
Dredge, electrically driven hydraulic..... *251
Dredge for Cuyahoga River improvement, hydraulic. Fies *245
Dredge Foyers, 42-inch hydraulic..... *256
Dredge, quick repairs to damaged..... *257
Dredge tender for U. S. Army engineers. 243
Dredger and hopper barge for Tasmania. Coleman *250
Dredgers built in the United Kingdom, types of 246
Dredges, dipper, most powerful in the world *254
Dredges for improving Arkansas River, Government *252
Dredges, four-yard dipper 247
Dredges, Ellicott pipe line and seagoing hydraulic *253
Dredges, latest United States. Bruner... *241
Dredges on the Cape Cod Canal, ten-yard dipper *255
Dry docks, two new Crandall railway.... *166
Dyson chart system of propeller design. Malseed *74
Economical use of electricity for lighting. 37
Economy gained by handling freight with electric trucks at marine terminals.... *124
Economy of marine terminals, inclined elevators increase *119
Economy talks by "Old Scotch"..37, 81, 129, 171, 221, 267, 313, 359, 407, 457
Edith, foundering of steamer..... *499
Edouard Jeramec, French-built cable ship. Coleman *146
Ejector, air. Kothny *556
Electric freight trucks at Galveston, handling cotton with *103
Electric propulsion of battleships 545
Electric towing system at the Panama locks *161
Electric trucking at the New York terminal of the Southern Pacific Steamship Company *102
Electric trucks at marine terminals, economy gained by handling freight with.... *124
Electrical engineering, latest developments in marine. Hornor 201
Electrical propulsion, applicability of to battleships. Robinson *19
Electrically driven hydraulic dredge..... *251
Electricity, economical use of for lighting. 37
Electricity on board ship. Bullard..... *63
Electricity to propulsion, application of. Donnelly *204, 264
Ellicott pipe line and seagoing hydraulic dredges *253
Emblane, steamer *297
Empress of Ireland, salvage work on. Skerrett *60
Engine, Craig Diesel type marine oil.... *217
Engine, thermodynamics of the marine. Wentworth 17
Engineering Congress, International..... 445
Expansion or contraction of dimensions and the effect upon resistance. Sadler. *11
Experiments to determine the action of ship brake 544
Experiments upon a yacht's mainsail..... 540
Experiments with models having radical variations of after sections. Taylor.. *14
Facilities for shipping and freight handling at river ports. Tratman..... 115
Feed-water heaters and boiler circulators. "Old Scotch" 171
Fern, lighthouse tender *497
Ferry boat Alfred, stern wheel..... *499
Ferry Contra Costa. Olin *385
Ferry, large motor-driven railway train. Belden *302
Ferry steamer Alameda, Southern Pacific. Olin *194
Fire float Delta II, motor..... *492
First Diesel-engined vessel for the United States Navy 532
Fleet, maintenance of 548
Forty-two-inch hydraulic dredge Foyers.. *256
Foundering of steamer Edith *499
Four-yard government dipper dredges.... 247
Foyers, 42-inch hydraulic dredge..... *256
Francis Hanify, steamer *30
Freight at New York terminals, congestion of *80
Freight handling at Havana, Cuba..... *116
Freight handling at railway marine terminals. Hardy *103

Original from UNIVERSITY OF MICHIGAN

Freight handling at river ports, facilities for. Tratman 115
Freight handling with electric trucks at marine terminals, economy gained by... *124
Freight movements, reservoir effects in. Rogers *107
Freight steamer Huron, self-unloading.. *52
Freight steamer Nevada *347
French battleships Bretagne and Provence *198
French-built cable ship Edouard Jeramec. Coleman *146
French destroyers, latest *168
Frictional resistance of ships, variation of 543
Frigates, our first 18
Fruit-carrying steamer van Hogendorp. Coleman *67
Fuel ship Maumee..... 532
Fulton, trials of the submarine tender... *77
Fushimi Maru, Japanese liner..... *311

Gallia, motor ship *420
Gold Finder, schooner 36
Government dredges, four-yard dipper... 247
Government dredges for improving the Arkansas River *252
Government towboat Warioto *487
Gracie S., installation of 120-horsepower Bolinder oil engine in pilot schooner.. *158
Great Northern, interior views of..... *394
Gulfcoast, launch of the *199
Gulflight, torpedo damage to the oil tanker *520
Gyro-stabilizer for ships, recent progress with 542

Handling cotton with electric freight trucks at Galveston *103
Hog and sag of merchant vessels, data on. 547
Hopper barge and bucket ladder dredger for Tasmania. Coleman *250
Houseboats Captiva and Conewago..... *536
How to avoid big bills. "Old Scotch".. 267
Huron, self-unloading freight steamer... *52
Hydraulic dredge, electrically driven.... *251
Hydraulic dredge for Cuyahoga River improvement. Fies *245
Hydraulic dredge Foyers, 42-inch..... *256
Hydraulic dredges, Ellicott *253

Idlewild, Mississippi River excursion steamer *488
Inclined elevators, increase economy of marine terminals *119
Inland navigation and barge construction. 542
Installation of 120-horsepower Bolinder oil engine in pilot schooner Gracie S... *158
Insurance, changes in war-risk 59
Interior decoration of vessels..... 545
International Conference on safety of life at sea. Chamberlain 8
International Engineering Congress..... 445
Interior views of the Great Northern.... *394
Introduction of a modern method in shipbuilding. Brown *163

Japanese liner Fushimi Maru *311
Japanese shipyards in 1914, output of.... *170
Jason as a Christmas ship, U. S. collier.. *32
Jason, motor boat *488

Khiva, new P. & O. boat..... 59

Lake passenger steamer Noronic..... *431
Lara, motor ship *420
Latest French destroyers *168
Latest United States dredges. Bruner... *241
Launch of the Gulfcoast *199
Launching data for a battleship. Tawresey 9
Launching of battleship Arizona. Barber. *334
Light-draft tunnel boat Margery 3..... *499
Lighthouse tender Fern *497
Lighting ships, superiority of Tungsten lamps for. Porter *336
Locks and dam No. 17 on the Black Warrior River, completion of *301
Locomotive cranes for handling coal, barges equipped with Brownhoist..... *118
Lubrication. "Old Scotch" 129
Lumber operations on the Atlantic Coast. *126
Lumber stamer Francis Hanify..... *30
Lumber steamer William O'Brien..... *126
Maintenance of the fleet 548
Marine Engineer's "Paradise." "Old Scotch" 313
Marine oil engines for commercial work.. *495
Marine terminals of Beaumont, Texas. Harding *299
Maumee, United States fuel ship..... 532
Mietz & Weiss oil engines..... *495
Mississippi River excursion steamer Idlewild *488
Model tank experiments of ship brake... 544
Models, naval engineering ship. Van Vleck 22
Modern self-propelled barge for the Mississippi River *497
Modern submarines in war and peace. Lake.....*286, 349, 399, 450, 502, 559
Most powerful dipper dredges in the world *254
Motor-boat Dawn, equipped with electric drive. Donnelly *204, 264
Motor boat Kern *488
Motor-driven railway train ferry, large. Belden *302
Motor ferry boat *499
Motor fire float Delta II..... *492
Motor ship Gallia *420
Motor ship Lara *420
Motor ship Tongking *64
Motor ships in service, Werkspoor. Lisle. 23
Motor tug Chickamauga, Diesel. Nicholson *493
Nantucket, adventures of 29
Naval Advisory Board 473
Naval Architects' annual meeting for 1915 540
Naval Architects' meeting, programme of. 525
Naval Architects' meeting, report of....8, 525
Naval Engineering ship models. Van Vleck 22
Naval vessels, auxiliary *295
Navy, the old and the new. McFarland.. 174
Nevada, freight steamer *347
New marine refrigerating machine. Kothny *550
New steamers for American flour trade. Coleman *531
New United States revenue cutters *5
New vacuum apparatus. Kothny..... *556
News items, shipbuilding, etc..*324, 368, 418, 467, 517
Noronic, lake passenger steamer..... *431
Northwestern Miller, new steamship.... *531
Notes on the conversion of cargo vessels into bulk oil carriers. Ruprecht..165, 212, 258, 309, 340, 404

Oil engine, Craig Diesel type marine... *217
Oil engines as auxiliary power for sailing vessels 348
Oil engines for commercial work, marine. *495
Oil fuel, possible savings with..... 81
Oil engine, installation of 120-horsepower Bolinder in pilot schooner Gracie S.... *158
Oil tanker Gulflight, torpedo damage to the *520
Old navy and the new. McFarland 174
One hundred percent efficient, yet obsolete 36
Operation of a marine Diesel engine. Percy 209
Ore unloading plant at Hurón..... *65
Our first frigates. Roosevelt 18
Output of Japanese shipyards in 1914.... *170
P. & O. boat Khiva..... 59
Panama locks, electric towing system at the *161
Pennsylvania, reduction gears on..... *339
Pennsylvania, speed control on dreadnought *200
Performance of the shalow-draft producer-gas barge Richmond..... *274
Period of vibration of steamships..... 547
Pier at Charleston, S. C., new Southern Railway coaling *151
Pilot schooner Gracie S., installation of 120-horsepower Bolinder oil engine in.. *158
Pipe line and seagoing hydraulic dredges. *253
Points of attack in the terminal problem. Jackson *111
Possible savings with oil fuel..... 81
Prince Rupert terminal, shipyard at. Donnelly *121
Producer-gas barge Richmond, performance of *274
Progress of U. S. naval vessels..... 128
Propeller design, Dyson chart system of. Malseed *74
Propeller of vessel replaced *440
Propellers, design of small-screw. Jackson *446
Propellers, weights of solid, four-blade. Baier *220
Provence and Bretagne, French battleships *198
Punch spacing machines. Brown *163
Quick repairs to damaged dredge..... *257
Railway dry docks, two new Crandall.... *166
Railway marine terminals, freight handling at. Hardy *103
Ramon, railway train ferry. Belden..... *302
Recent development in submarine signaling. Millet 16
Recent Ellicott pipe line and seagoing hydraulic dredges *253
Recent progress with active type of gyro-stabilizer for ships 542
Reconstruction of U. S. dredge Barnard. Peyton *244
Red Star liner Belgenland *344
Reduction gears on the Pennsylvania.... *339
Refrigerating machine, Westinghouse-Leblanc. Kothny *550
Refrigerating plant, American steamer Dochra *150
Refueling warships at sea. Miller 17
Repair bills, how to avoid. "Old Scotch" 257
Repairs to damaged dredge, quick *257
Replacing propeller of vessel..... *440
Reservoir effects in freight movements. Rogers *107
Resistance, effect of expansion or contraction of dimensions on. Sadler..... *11
Resistance of ships, determination of.... 544
Resistance of ships, variation of friction. 543
Results of model tank experiments to determine the action of ship brake..... 544
Revenue cutters, new United States..... *5
Richmond, performance of *274
River ports, facilities for. Tratman..... 115
Riveted joints, behavior of under stresses. Howard 18
Safe navigation in fog, submarine signaling and proposed method of. Sawyer.. 21
Safety of life at sea. Donald..... 9
Safety of life from fire at sea. Teague.. 9
Sag and hog of merchant vessels, data on. 547
Sailing ships, development of auxiliary.. 300
Salvage operations at Seattle..... *518
Salvage work on the Empress of Ireland. Skerrett *60
Savings that can be made when a vessel is in port. "Old Scotch" 221
Savings with oil fuel, possible 81
Schooner Gold Finder 36
Screw propellers, design of small. Jackson *446
Seagoing steel tug Bristol *77
Selected marine patents....*48, 94, 142, 190, 236, 272, 330, 378, 426, 474, 526, 576
Self-unloading freight steamer Huron... *52
Shallow-draft boat for the Yangtse Kiang *491
Shallow-draft houseboats for yachtsmen.. *536
Shallow-draft, producer-gas barge Richmond, performance of *274
Shallow-draft snag boat Swinomish..... *501
Shallow-draft, wood-burning tug..... *36
Ship brake, experiments on..... 544
Shipbuilding and general marine news, *324, 368, 418, 467, 517, 571
Shipbuilding in the United States in 1914 34
Shipbuilding, introduction of a modern method in. Brown *163
Ship construction, tank. Morrell.....*26, 71
Ship models, naval engineering. Van Vleck 22

Ships' forms, calculations for. Taylor... 443
Shipyard at Prince Rupert terminal. Donnelly *121
Shipyards in 1914, output of Japanese... *170
Shu-Hun, shallow-draft boat..... *491
Side-wheel car ferry Contra Costa. Olin. *385
Signaling, recent development in submarine. Millet 16
Signaling, submarine, and proposed method of safe navigation in fog. Sawyer..... 21
Small steam turbines for auxiliaries..... 547
Snag boat Swinomish, shallow-draft..... *501
Society of Naval Architects, annual meeting of 8, 525
Society Naval Architects, programme of.. 525
Some comparisons relating to electric propulsion of battleships 545
Some results from the working of steel plate *514
Southern Pacific ferry steamer Alameda. Olin *194
Southern Railway coaling pier at Charleston, S. C. *151
Spacing riveted holes in ship plates by machinery. Brown *163
Speed control on dreadnought Pennsylvania *200
Stability of vessels as affected by damage due to collision. Gatewood.....*11, 156
Steam turbines for auxiliaries 547
Steamer Alameda, Southern Pacific, ferry. Olin. *194
Steamer Dochra *150
Steamer Edith, foundering of..... *499
Steamer Emblane *297
Steamer Empress of Ireland, salvage work on. Skerrett *60
Steamer Francis Hanify *30
Steamer Fushimi Maru *311
Steamer Great Northern, interior views of *394
Steamer Huron, self-unloading freight... *52
Steamer Idlewild, Mississippi River excursion *488
Steamer Khiva, new P. & O..... 59
Steamer Maumee, United States fuel ship. 532
Steamer Nantucket, adventures to..... 29
Steamer Nevada *347
Steamer Noronic, lake passenger..... *431
Steamer Shu-Hun, shallow-draft..... *491
Steamer Transmitter, cable-repairing. Coleman *382
Steamer van Hogendorp, fruit-carrying. Coleman *67
Steamer William O'Brien *126
Steamers and barges, Western river. Burnside *478
Steamship Belgenland *344
Steamship design. Everett *436
Steamship Northwestern Miller. Coleman. *531
Stern-wheel motor ferry boat..... *499
Submarines in war and peace, modern. Lake.....*286, 349, 399, 450, 502, 559
Submarine of to-day and to-morrow..... 549
Submarine signaling and proposed method of safe navigation in fog. Sawyer..... 21
Submarine signaling, recent development in. Millet 16
Submarine tender, Fulton, trials of the.. *77
Superheated steam in marine practice.... 548
Superiority of Tungsten lamps for lighting ships. Porter *336
Swinomish, shallow-draft snag boat..... *501
Tank-ship construction. Morrell.....*26, 71
Ten-yard dipper dredges on the Cape Cod Canal *255
Terminal, barge canal *114
Terminal of the Southern Pacific Steamship Co., trucking at the New York... *102
Terminal machinery, marine. Sawyer.... 109
Terminal problem, points of attack in. Jackson *111
Terminal, shipyard at Prince Rupert. Donnelly *121
Terminals, congestion of freight at New York *80
Terminals, economy gained by handling freight with electric trucks at marine.. *124
Terminals, freight-handling at railway marine. Hardy *103
Terminals, inclined elevators increase economy of marine *119
Terminals of Beaumont, Texas, marine. Harding *299
Terminals, transfer facilities at marine. Harding *98
Thermodynamics of the marine engine. Wentworth 17
Tonking, motor ship *64
Torpedo damage to the oil tanker Gulflight *520
Towboat Warioto, government *487
Towing system at the Panama locks, electric *161
Transfer facilities at marine terminals. Harding *98
Transmitter, cable-repairing steamer. Coleman *382
Trials of the submarine tender Fulton... *77
Trucking at the New York terminal of the Southern Pacific Steamship Co., electric *102
Trucks at Galveston, handling cotton with electric freight *103
Tug Bristol, seagoing steel *77
Tug, shallow-draft, wood-burning..... *36
Tungsten lamps for lighting ships, superiority of. Porter *336
Tunnel boat Margery, light-draft..... *499
Turbines for auxiliary purposes 547
Two new Crandall railway dry docks... *166
Types of dredgers built in the United Kingdom 246
Unloading cargoes by portable machines. *105
Unloading plant at Huron, ore..... *65
United States battleship Arizona, launching of. Barber *334
United States battleship Pennsylvania, reduction gears on *339
United States battleship Pennsylvania, speed control on dreadnought *200
United States collier Jason as a Christmas ship *32
United States dredge Barnard, reconstruction of. Peyton *244
United States dredges, the latest. Bruner. *241
United States revenue cutters, new..... *5
United States submarine tender Fulton, trials of *77
Use of oil engines as auxiliary power for sailing vessels 348
Vacuum apparatus, New. Kothny..... *556
Van Hogendorp, fruit-carrying steamer. Coleman *67
Variation of frictional resistance of ships with conditions of wetted surface..... 513
Vibration of steamships, period of..... 547
War-risk insurance, changes in..... 59
Warioto, government towboat *487
Warships, refueling at sea. Miller..... 17
"Watch Your Pistons!" "Old Scotch"... 407
Weights of solid, four-bladed propellers. Baier *220
Welland ship canal, construction of the. Craick *154
Werkspoor motor ships in service..... 28
Western river steamers and barges. Burnside *478
Westinghouse-Leblanc air ejector system. Kothny *556
Westinghouse-Leblanc refrigerating machine. Kothny *550
William O'Brien, lumber steamer..... *126
Working of steel plate, some results from the *514
Zinc, suggestions about the use of. "Old Scotch" 457

MARINE ARTICLES IN THE ENGINEERING PRESS

Air fleet: our pressing naval want. Parker 321
Albatross, exploration ship 466
American battleships, new. Prendergast. 89
Apparatus for marking shell-plates..... 229
Application, improvement and preservation of wood in shipbuilding..... 229
Application of cruiser stern to merchant vessels 43
Automobile torpedo 416
Auxiliaries and equipment for merchant vessels, recent 137
Basis for rational design of heat transfer apparatus. Wilson 365
Battleships, new American. Prendergast. 89
Big self-unloader put in service. Sawhill. 570
Blade fastenings for steam turbine. Capstaff 322
Boilers, heat transmission and efficiency of. Royds 181
Boilers, oil fuel as applied to marine. Walker 181
British engineering and shipbuilding, the future of. Smith 181
Burmeister & Wain oil engine..... 275
Calculation of the top girder of a suction dredge 365, 416
Canadian Vickers, Ltd., at Montreal, works of 276
Ciudad de Buenos Aires and Ciudad de Monte Video, twin-screw steamships... 229
Contracts, some technical aspects of shipbuilding. Bocler 465, 569
Contribution to the question of unsinkable modern ships 230
Counter propellers, systematic model experiments on tugs with. Wagner..... 275
Cracked and seized pistons on Diesel engines. 416
Crane, 200-ton floating, of the Norwegian navy 43
Cranes for the Panama Canal, 250-ton floating 321
Cranes, modern gantry 230
Cruiser stern to merchant vessels, application of 43
Cunard geared turbine liner Transylvania. 89
Cylindrical tank oil-carrying steamer Ricardo. A. Mestres 275
Deck loads of timber 182
Decline of the sailing ship..... 44
Destruction of German and Austrian ships in Antwerp 365
Development of German marine engine construction 44
Diesel engine. Herr Prof. Dr. Ing. Rieppel 276
Diesel engine of medium size. Nobel... 275
Diesel engines, cracked and seized pistons on 416
Diesel ships, efficiency and future of large 230
Disk friction on turbine pump design, influence of. zur Nedden 366
Downes, trials of. Griffin..... 321
Dry-docking facilities, Japanese. Thompson 569
Efficiency and future of large Diesel ships. 230
Efficiency of boilers and heat transmission. Royds 181
Efficiency of the Scotch boiler, how it can be improved. Tait 89
Electric propulsion for battleships. Knox. 321
Engine at the South Shields Marine School, experimental marine type..... 137
Engine construction, development of German marine 44
Engines, recent development of..... 137
Equipment and auxiliaries for merchant vessels 137
Evolution of the oil tank ship. Barringer. 417
Execution of stability calculations..... 465
Experimental marine-type engine at the South Shields Marine School..... 137
Experimental methods of the German government model tank, Berlin....366, 417, 465
Experiments on the influence of indicator connecting pipes. Morley 181
Exploration ship Albatross, of the Zoological station in Rovigno 466
Feed-water heaters, heat transmission and tube length in. Loeb 322
Ferrol dockyard, graving dock at..... 570
Ferry steamer, ice-breaking train..... 515
First year at Panama. Marvin..... 516
Floating crane of the Norwegian navy, 200-ton 43
Floating cranes for the Panama Canal... 321
Form of the propeller stream and its energy changes 465
Freight steamer W. F. White. Sawhill. 570
Fruit-carrying and passenger steamer Van Stirum 230
Fuel, solid, from the technical and commercial standpoint. Battle..... 569
Future of British engineering and shipbuilding. Smith 181
Gantry cranes, modern 230
Geared turbine liner Transylvania..... 89
Geared turbines for ship propulsion..... 89
German marine engine construction, development of 44
Governing of marine engines and high-speed auxiliaries. Walker 181
Grand Duke Fredrich August, German Schoolship 515
Graving dock at Ferrol dockyard..... 570
Imperator, turbine express steamer..... 44
Influence of disk friction on turbine design. zur Nedden 366
Heat transfer apparatus, basis for rational design of. Wilson 365
Heat transmission and efficiency of boilers. Royds 181
Heat transmission and tube length in marine feed-water heaters. Loeb..... 322
How the efficiency of the Scotch boiler can be improved. Tait 89
Ice-breaking train ferry steamer..... 515
Improvement of the river Clyde and harbor of Glasgow, 1873 to 1914. Mason. 181
Indicator connecting pipes, experiments on the influence of. Morley 181
Institute of Marine Engineers 182
Irish commissioners' lightship Petrel..... 570
Japanese dry-docking facilities. Thompson 569
Lesson from the Lusitania disaster. Hovgaard 569
Lightship Petrel 570
Lusitania disaster, lesson from. Hovgaard. 569
Lubrication of journal bearings, laws of. Hersey 365
Manufacture of heavy chains..... 43
Marking shell plates, apparatus for..... 229
Michell thrust blocks for the S.S. Ciudad de Buenos Aires 182
Model experiments for stability of motion of submarine boats 465
Model tank, experimental methods of the German government, Berlin....366, 417, 465
Models, systematic trials of ship..... 229
Modern gantry cranes 230
Motor boats, progressive speed trials of. Burnaud 137
Motorship Pacific 516
Motor ships, performance of 275
Missanabie and Metagama, twin-screw passenger and cargo steamers 90
Naval scouts. Earle 466
New American battleships. Prendergast. 89
New graving dock at Ferrol dockyard.... 570
New shipyard tools and methods. Phelps. 321
New York, U. S. S. Gregory 181
Nobel marine Diesel engine of medium size 275
Notes on heat transmission and efficiency of boilers. Royds 181
Oil-carrying steamer Ricardo A. Mestres. 275
Oil engine, Burmeister & Wain..... 275
Oil fuel applied to marine boilers. Walker 181
Oil tank ship, evolution of. Barringer.. 417
Pacific, motorship 516
Panama, first year at. Marvin..... 516
Performance of motor ships 275
Petrel, lightship..... 570
Pistons on Diesel engines, cracked and seized 416
Plate gussets for shipbuilding, use of.... 137
Power-steering gear. Martineau..... 229
Preservation of wood in shipbuilding.... 229
Progress of reform in the engineer branch of H. M. Navy. Morison 181
Progressive speed trials of motor boats. Burnaud 137
Propeller, revival of the reversible blade. 275
Propeller stream and its energy changes. 465
Propeller stream lines, investigations and measurements in by Pitot tubes..... 466
Propellers, systematic model experiments on tugs with Wagner counter..... 275
Quadruple-screw turbine express steamer Imperator 44
Recent auxiliaries and equipment for merchant vessels 137
Recent development of marine engines, including propulsion 137
Recent investigations and measurements by Pitot tubes in propeller stream lines. 466
Repair plant of U. S. S. Vestal. Connolly 182
Reversible-blade propeller, revival of the. 275
Ricardo A. Mestres, tank steamer..... 275
Rose Castle, steam collier 417
Sailing ship, decline of 44
Schoolship Grandduke Fredrich August, German 515
Scotch boiler, how the efficiency of can be improved. Tait 89

Shear, heavy gate. Bertsch & Co. *278
Stuffing box, vibrating. Steel Mill Packing Co. *278
Test, interesting. Welin Marine Equipment Company 574
Tool-om-Eter. New Jersey Meter Co..... *186
Tools, two handy. W. D. Forbes..... *279
Tubes, basic open-hearth steel. Worth Bros.-Coatesville Rolling Mill Co..... 140
Turbines, large shipment of Terry. Terry Turbine Co. *232
Turbo-gear. Turbo-Gear Co. *374
Valve, "Irenew." Wm. Powell Co..... *141
Valve, "Simplate." Chicago Pneumatic Tool Co. *524
Wrench, automatic, Barnsley. Automatic Wrench Co. *375
Wrench, compression. Lutz-Webster Engineering Co. *188
Yoke forging, unusual. Delaney Forge & Iron Company *574

MARINE ARTICLES IN THE ENGINEERING PRESS

Air fleet: our pressing naval want. Parker 321
Albatross, exploration ship 466
American battleships, new. Prendergast. 89
Apparatus for marking shell-plates..... 229
Application, improvement and preservation of wood in shipbuilding..... 229
Application of cruiser stern to merchant vessels 43
Automobile torpedo 416
Auxiliaries and equipment for merchant vessels, recent 137
Basis for rational design of heat transfer apparatus. Wilson 365
Battleships, new American. Prendergast. 89
Big self-unloader put in service. Sawhill. 570
Blade fastenings for steam turbine. Capstaff 322
Boilers, heat transmission and efficiency of. Royds 181
Boilers, oil fuel as applied to marine. Walker 181
British engineering and shipbuilding, the future of. Smith 181
Burmeister & Wain oil engine..... 275
Calculation of the top girder of a suction dredge 365, 416
Canadian Vickers, Ltd., at Montreal, works of 276
Ciudad de Buenos Aires and Ciudad de Monte Video, twin-screw steamships... 229
Contracts, some technical aspects of shipbuilding. Bocler 465, 569
Contribution to the question of unsinkable modern ships 230
Counter propellers, systematic model experiments on tugs with. Wagner..... 275
Cracked and seized pistons on Diesel engines. 416
Crane, 200-ton floating, of the Norwegian navy 43
Cranes for the Panama Canal, 250-ton floating 321
Cranes, modern gantry 230
Cruiser stern to merchant vessels, application of 43
Cunard geared turbine liner Transylvania. 89
Cylindrical tank oil-carrying steamer Ricardo. A. Mestres 275
Deck loads of timber 182
Decline of the sailing ship..... 44
Destruction of German and Austrian ships in Antwerp 365
Development of German marine engine construction 44
Diesel engine. Herr Prof. Dr. Ing. Rieppel 276
Diesel engine of medium size. Nobel... 275
Diesel engines, cracked and seized pistons on 416
Diesel ships, efficiency and future of large 230
Disk friction on turbine pump design, influence of. zur Nedden 366
Downes, trials of. Griffin..... 321
Dry-docking facilities, Japanese. Thompson 569
Efficiency and future of large Diesel ships. 230
Efficiency of boilers and heat transmission. Royds 181
Efficiency of the Scotch boiler, how it can be improved. Tait 89
Electric propulsion for battleships. Knox. 321
Engine at the South Shields Marine School, experimental marine type..... 137
Engine construction, development of German marine 44
Engines, recent development of..... 137
Equipment and auxiliaries for merchant vessels 137
Evolution of the oil tank ship. Barringer. 417
Execution of stability calculations..... 465
Experimental marine-type engine at the South Shields Marine School..... 137
Experimental methods of the German government model tank, Berlin....366, 417, 465
Experiments on the influence of indicator connecting pipes. Morley 181
Exploration ship Albatross, of the Zoological station in Rovigno 466
Feed-water heaters, heat transmission and tube length in. Loeb 322
Ferrol dockyard, graving dock at..... 570
Ferry steamer, ice-breaking train..... 515
First year at Panama. Marvin..... 516
Floating crane of the Norwegian navy, 200-ton 43
Floating cranes for the Panama Canal... 321
Form of the propeller stream and its energy changes 465
Freight steamer W. F. White. Sawhill. 570
Fruit-carrying and passenger steamer Van Stirum 230
Fuel, solid, from the technical and commercial standpoint. Battle..... 569
Future of British engineering and shipbuilding. Smith 181
Gantry cranes, modern 230
Geared turbine liner Transylvania..... 89
Geared turbines for ship propulsion..... 89
German marine engine construction, development of 44
Governing of marine engines and high-speed auxiliaries. Walker 181
Grand Duke Fredrich August, German Schoolship 515
Graving dock at Ferrol dockyard..... 570
Imperator, turbine express steamer..... 44
Influence of disk friction on turbine design. zur Nedden 366
Heat transfer apparatus, basis for rational design of. Wilson 365
Heat transmission and efficiency of boilers. Royds 181
Heat transmission and tube length in marine feed-water heaters. Loeb..... 322
How the efficiency of the Scotch boiler can be improved. Tait 89
Ice-breaking train ferry steamer..... 515
Improvement of the river Clyde and harbor of Glasgow, 1873 to 1914. Mason. 181
Indicator connecting pipes, experiments on the influence of. Morley 181
Institute of Marine Engineers 182
Irish commissioners' lightship Petrel..... 570
Japanese dry-docking facilities. Thompson 569
Lesson from the Lusitania disaster. Hovgaard 569
Lightship Petrel 570
Lusitania disaster, lesson from. Hovgaard. 569
Lubrication of journal bearings, laws of. Hersey 365
Manufacture of heavy chains..... 43
Marking shell plates, apparatus for..... 229
Michell thrust blocks for the S.S. Ciudad de Buenos Aires 182
Model experiments for stability of motion of submarine boats 465
Model tank, experimental methods of the German government, Berlin....366, 417, 465
Models, systematic trials of ship..... 229
Modern gantry cranes 230
Motor boats, progressive speed trials of. Burnaud 137
Motorship Pacific 516
Motor ships, performance of 275
Missanabie and Metagama, twin-screw passenger and cargo steamers 90
Naval scouts. Earle 466
New American battleships. Prendergast. 89
New graving dock at Ferrol dockyard.... 570
New shipyard tools and methods. Phelps. 321
New York, U. S. S. Gregory 181
Nobel marine Diesel engine of medium size 275
Notes on heat transmission and efficiency of boilers. Royds 181
Oil-carrying steamer Ricardo A. Mestres. 275
Oil engine, Burmeister & Wain..... 275
Oil fuel applied to marine boilers. Walker 181
Oil tank ship, evolution of. Barringer.. 417
Pacific, motorship 516
Panama, first year at. Marvin..... 516
Performance of motor ships 275
Petrel, lightship..... 570
Pistons on Diesel engines, cracked and seized 416
Plate gussets for shipbuilding, use of.... 137
Power-steering gear. Martineau..... 229
Preservation of wood in shipbuilding.... 229
Progress of reform in the engineer branch of H. M. Navy. Morison 181
Progressive speed trials of motor boats. Burnaud 137
Propeller, revival of the reversible blade. 275
Propeller stream and its energy changes. 465
Propeller stream lines, investigations and measurements in by Pitot tubes..... 466
Propellers, systematic model experiments on tugs with Wagner counter..... 275
Quadruple-screw turbine express steamer Imperator 44
Recent auxiliaries and equipment for merchant vessels 137
Recent development of marine engines, including propulsion 137
Recent investigations and measurements by Pitot tubes in propeller stream lines. 466
Repair plant of U. S. S. Vestal. Connolly 182
Reversible-blade propeller, revival of the. 275
Ricardo A. Mestres, tank steamer..... 275
Rose Castle, steam collier 417
Sailing ship, decline of 44
Schoolship Grandduke Fredrich August, German 515
Scotch boiler, how the efficiency of can be improved. Tait 89

Shallow-draft steamer for the Yangste Kiang 43
Shellplates, apparatus for marking..... 229
Ship Technical Society, 16th principal meeting of 89
Shipbuilding and engineering, the future of British. Smith 181
Shipbuilding contracts, some technical aspects of. Bocler 465, 569
Ships of the United States Navy, 1776 to 1915. Neeser.....229, 322
Shipyards, tools and methods. Phelps... 321
Sixteenth principal meeting of the Ship Technical Society 89
Solid fuel from the technical and commercial standpoint. Battle 569
Some technical aspects of shipbuilding contracts. Bocler 465, 569
Speed trials of motor boats, progressive. Burnaud 137
Stability calculations, execution of..... 465
Stability of motion of submarine boats, model experiments for 465
Steam collier Rose Castle 417
Steam trawler—typical ships 43
Steam turbine blade fastenings. Capstaff 322
Steamer for the Yangste Kiang, shallow-draft 43
Steamer Imperator 44
Steamer Ricardo A. Mestres 275
Steamer Transylvania, geared turbine.... 89
Steamer Van Stirum, fruit-carrying and passenger 230
Steamers Missanabie and Metagama, twin-screw 90
Steamship Vestal, description of repair plant. Connolly 182
Steamships Ciudad de Buenos Aires and Ciudad de Monte Video 229
Steering gear. Martineau 229
Submarine boats, model experiments for stability of motion of 465
Submarine, the. C. A. Ward, Jr..... 276
Surface condenser. Braun 366
Systematic model experiments on tugs with Wagner counter propellers 275
Systematic trials of ship models..... 229
Tank ship, evolution of. Barringer..... 417
Thrust blocks for the S.S. Ciudad de Buenos Aires. Michell 182
Tools and methods, new shipyard. Phelps 321
Torpedo, automobile 416
Torpedo boat destroyer Downes, trials of. Griffin 321
Transylvania, geared turbine liner..... 89
Trials of destroyer Nicholson 321
Trials of motor boats, progressive speed. Burnaud 137
Trials of ship models, systematic..... 229
Trials of the torpedo boat destroyer Downes. Griffin 321
Tube length and heat transmission in marine feed-water heaters. Loeb..... 322
Turbine blade fastenings. Capstaff..... 322
Turbine electric propulsion of a battleship compared with other means. Foote. 182
Turbine installation on torpedo boats of the new Spanish navy 516
Turbine liner Transylvania 89
Twin-screw passenger and cargo steamers Missanabie and Metagama 90
Twin-screw steamships Ciudad de Buenos Aires and Ciudad de Monte Video.... 229
Two-hundred ton floating crane of the Norwegian navy 43
Two hundred and fifty-ton floating cranes for the Panama Canal 321
Typical ships—a steam trawler 43
U. S. S. Balch, contract trial performance. Gregory 365
United States navy, ships of the. Neeser. 229
U. S. S. New York. Gregory 181
Unsinkable modern ships, contribution to the question of 230
Use of plate gussets for shipbuilding.... 137
Van Stirum, fruit-carrying and passenger steamer 230
Vestal, description of repair plant. Connolly 182
Wagner counter propellers, systematic model, experiments on tugs with..... 275
Warships of the future 275
W. F. White, self-unloading freight steamer. Sawhill 570
Works of Canadian Vickers, Ltd., at Montreal 276

QUESTIONS AND ANSWERS

Advantages of open rod valve gear..... 360
Advantages of the turret-deck steamer.. *458
Air vessel on pump suction line, number of coils in safety-valve spring..... 409
Babbitt metal, composition of..... 172
Bearings, spacing of 315
Boiler, calculation for size of..... 567
Book on Diesel engines 408
Calculation for size of boiler..... 567
Calculations for thrust..... 513
Calorific values of coal and oil..... 408
Centrifugal pumps for boiler feed..... 172
Centrifugal pumps vs. circulating pumps. 173
Chattering of safety valves 222
Coal and oil, calorific values of..... 408
Coal consumption per indicated horsepower per hour..... 568
Coal, quality of soft 222
Coefficient of moment of inertia of load waterline 513
Comparative economy of discharging steam from evaporator into hot well, condenser or low-pressure receiver 268
Compressive strength of metals..... 513
Condensers, jet 38
Condenser, relation of temperatures of discharge of circulating water and vacuum 173
Condenser tubes, length of 38
Copper-hardening scheme, fallacy of.... 84
Correct method of counting revolutions of engines 360
Corrosion of steel and iron boilers..... 172
Corrugated furnace, heating surface of... 458
Critical temperature 567
Deck beam knees, fitting of 360
Defects in indicator cards *131
Depth at which submarines operate..... 222
Diameter and length of turbine rotors... 268
Diesel engine installation, the largest.... 130
Diesel engines, book on..... 408
Diesel engines, size, speed and fuel consumption of 408
Dimensions of 75-horsepower yacht engine 39
Does sea ice contain salt?..... 222
Draft figures 130
Dredge, trials of hydraulic 269
Eccentric, effect of slipping of *408
Economical speed of impulse turbine.... *83
Effect of slipping of eccentric 408
Effect of varying position of compass on board ship 360
Efficiency of propulsion 38
Efficiency of turbine, thermal 38
Elastic limit and yield point..... *567
Electric generator, sparking of commutator 173
Energy and work 513
Equivalent evaporation 409
Expansions, number of for triple-expansion engine 130
Fallacy of copper-hardening scheme..... 84
Fitting deck-beam knees 360
Formula for estimating the speed of a boat 360
Foul bottom, reduction of speed of vessel, due to 568
Foulness of bottom, effect of on speed of ship 84
Four-bladed vs. three-bladed propeller... 360
Fuel consumption of freight steamship... 130
Fuses, overload on 172
Guns, solid steel vs. the wire-wound.... 513
Heating of carbon brushes of electric lighting set 172
Heating surface of a corrugated furnace. 458
Heel pieces 513
Helicoidal area of propeller 83
Horsepower from indicator cards....*131, 132
Horsepower from indicator cards..... 222
Horsepower of stern-wheel towboat...39, 132
How to figure the coal consumption per indicated horsepower per hour..... 568
Hydraulic dredge, trials of 269
Impulse turbine, economical speed of vanes *83
Indicator cards, defects in *131
Indicator cards, horsepower from, *131, 132, 222
Jet condensers 38
Length of condenser tubes 38
Limitations of heavy oil engines..... 360

Lubricating oils, tests of 83
Michell thrust bearing 130
Motive power for submerged operation of submarines 514
Number of expansions for triple-expansion engine 130
Oil and coal, calorific values of 408
Oil burners, pressure *314
Oil engines, limitations of 360
Oiler, requirements and pay for..... 222
Operation of a steam gage..... *361
Otto cycle 408
Parsons vacuum augmentor *38
Pipe, strength of main steam *314
Piston ring, repairs to 514
Position of air vent cocks in feed-water heaters 361
Power calculations 222
Power for towing barges 39
Pressure oil burners *314
Projected area of propeller 83
Propeller, four-bladed vs. three-bladed.. 360
Propeller, helicoidal and projected area of 83
Pulling power exerted by winch or windlass 172
Quality of soft coal..... 222
Reduction of speed of vessel due to foul bottom 568
Relation between temperatures of discharge of circulating water and vacuum in condenser 173
Relative advantages of turbines, Diesel engine and reciprocating-engine drive.. 222
Repairs to piston ring 514
Requirements and pay for a position as oiler 222
Revolutions of engines, method of counting 360
Revolutions of turbine, determination of. 84
Safety valve, size of 268
Safety valves, chattering of 222
Size of safety valve 268
Size, speed and fuel consumption of 600-horsepower Diesel engine 408
Slip of screw propeller 315
Smokestack, temperature of 172
Solid steel vs. wire-wound guns..... 513
Sparking of commutator of electric generator 173
Spacing of spring bearings..... 315
Speed of boat, formula for estimating.... 360
Speed of vanes of impulse turbine..... *83
Stack gases, temperature of 408
Steam consumption of triple-expansion engine 172
Steam gage, operation of *361
Steel forgings, testing of 173
Stop waters for single-strapped butt joints *360
Strength of main steam pipe *314
Stress and strain 458
Stress in flat plate *173
Stresses in expansion bends of steam lines *314
Submarines and submersibles *361
Submarines, depth of operation..... 222
Submarines, motive power for submerged operation of 514
Temperature of smokestack 172
Temperature of stack gases..... 408
Tests of lubricating oils 83
Thermal efficiency of turbine 38
Thrust bearing, Michell 130
Thrust, calculations for..... 513
Thrust, location of in turbine installation. 38
Torsion meters 130
Trials of hydraulic dredge 269
Turbine, determination of revolutions of. 84
Turbine rotors, diameter and length of... 268
Turbine, thermal efficiency of 38
Turbine thrust block, location of..... 38
Turbines, reaction or impulse..... *82
Turbines vs. Diesel engine and reciprocating engine drive 222
Turret deck steamer, advantages of..... *458
Vacuum augmentor, Parsons *38
Vacuum, effect of on high-pressure cylinders 130
Valve gear, advantages of upon rod..... 360
Weight of brass sleeve on tail shaft..... 268
Work and energy 513
Yield point and elastic limit..... *567
